CHAPTER 1

Monthly horoscope

1 December 2026

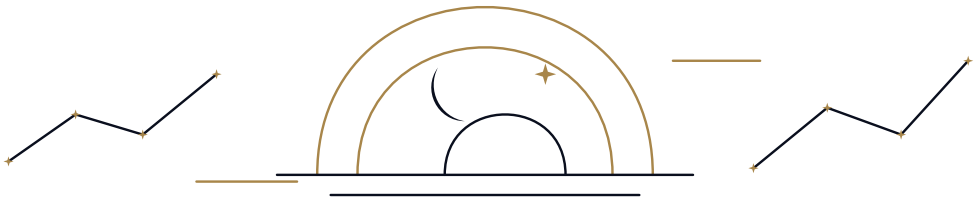
This report walks with you through the month ahead, using your own birth chart rather than a general Sun-sign note. It follows the faster planets — the Sun, Mercury, Venus and Mars — as they touch the sensitive points of your chart, together with the New Moon and Full Moon of the month and any of those planets turning retrograde.

These contacts are brief, often lasting only a few days, so they describe the changing weather of everyday life: moments when energy rises, when conversations matter, when relationships need attention or when it is wiser to slow down. Think of the pages as a personal weather guide: first the overall climate, then the days and moments that stand out.

Nothing here decides your path; it simply helps you recognise moods, openings and tender spots so you can meet them with more kindness and clarity. Read it at the start of the month, keep it at hand and return to it on the dates that call you.

Here is the overall mood of your month. Some contacts below repeat a similar theme, which usually means that area of life will feel especially alive. Easy, supportive links show where things can flow with little effort, while challenging ones highlight where patience and gentle adjustment help. The lunations mark natural moments to begin something at the New Moon, and to see results or release at the Full Moon.

Hold this overview in your heart as you read the day-by-day notes that follow, each with a key phrase and a piece of advice you can use in ordinary hours.



CHAPTER 2

☿ Wanting to get to the bottom of things

Mercury conjunction Pluto

Mercury meets your Pluto, deepening your thinking and making you perceptive. You may research, dig into hidden matters or have revealing conversations. Words have power now, so use them thoughtfully, especially when discussing sensitive subjects with others. Secrets may surface, giving you useful clarity. Insight gained now may change your perspective for good.

☉ Clear thoughts and easy words

Sun trine Mercury

The Sun supports your Mercury, so conversations, studies and paperwork tend to go well. You can express yourself with clarity and confidence. Use these days for negotiations, interviews or simply catching up with friends. Paperwork you have postponed may finally feel manageable, and a short trip could be pleasant.

☉ More natural steps in public life

Sun sextile MC

The Sun supports your Midheaven, favouring steady career progress and good relations with superiors. Your efforts are more likely to be noticed. It is a good time to update plans or take a practical step towards your aims. A useful contact may help. Consistent effort now builds a stronger reputation.

☿ In affection, words that miss the mark

Mercury square Venus

Mercury challenges your Venus, and well-meant words might land awkwardly in relationships. You may say yes to keep the peace when you mean no. Be kind but honest, and review any financial or romantic agreement carefully before committing. Tact matters more than speed today. Honesty kindly expressed builds trust.

☉ Steadiness that brings results

Sun sextile Saturn

The Sun supports your Saturn, making it easier to work steadily and earn respect. Practical tasks, long-term planning and meetings with people in authority can go well. Small, careful steps now build lasting results. Patience is rewarded, even if quietly, so keep going. Reliability earns you quiet respect; persevere.

☿ When your image is misunderstood

Mercury opposition Ascendant

Mercury challenges your Ascendant, and others may question your ideas or misinterpret your words. Partners could have strong opinions. Listen without becoming defensive, and clarify your position calmly to avoid unnecessary misunderstandings. Remember that different viewpoints are not personal attacks, and a light touch can defuse tension quickly; stay calm.

♂ Manners that are too blunt, or open clashes

Mars square Ascendant

Mars challenges your Ascendant, and conflicts with partners or rivals may arise. You might feel challenged to defend your position. Assert yourself calmly rather than aggressively. Physical activity helps release frustration, and cooperation usually achieves more than confrontation in close relationships these days.

☉ Determination that finds its path

Sun sextile Mars

The Sun supports your Mars, giving you extra stamina and confidence. Tasks that require initiative can go smoothly now. It is a good time for sport, decisive action and standing up for what you believe in. Projects that stalled may gain fresh momentum quickly. Start that difficult task now.

☿ Promising too much or skipping the checks

Mercury square Jupiter

Mercury challenges your Jupiter, and you may overpromise or exaggerate without meaning to. Plans could be too ambitious for the time available. Stay enthusiastic but realistic, and read contracts or travel bookings carefully before confirming. Trimming the to-do list keeps optimism grounded. Realistic timelines keep enthusiasm healthy and productive.

☿ Fluid thinking and practical solutions

Mercury trine Mercury

Mercury supports its birth-chart position, and your mind works with fluency and ease. Study, negotiation and problem-solving become smoother than usual. Reach out to contacts, finish paperwork or explain a complicated idea; people are likely to follow your reasoning without difficulty. Learning something new now could feel especially enjoyable and easy.

☿ Useful contacts that arrive naturally

Mercury sextile MC

Mercury supports your Midheaven, favouring work-related talks and career planning. You may receive useful information or find the right moment to propose an idea. Clear, practical communication helps you move closer to your professional aims. Updating your CV or portfolio could be timely. Thoughtful planning now supports future progress; plan ahead.

☉ Checking desires against direction

Sun square Sun

Sun in the sky challenges your Sun, and for a few days your plans may meet resistance or require adjustment. Tiredness or friction with others is possible. Treat it as a mid-course check: what needs refining so that your aims stay realistic? A modest change of course now can prevent bigger frustrations later.

♀ Warm meetings and widening pleasure

Venus sextile Jupiter

Venus supports your Jupiter, bringing optimism to love and money. Relationships feel generous and social occasions can be festive. A small financial gain or a kind favour is possible. Celebrate with people you value and share your good fortune. A celebration, a pleasant purchase or a kind word may make these days feel special.

☿ Method, clarity and realistic plans

Mercury sextile Saturn

Mercury supports your Saturn, helping you think methodically and communicate with authority. Agreements, formal documents and long-term planning are favoured. People are likely to respect your practical, well-prepared approach during these steady days. Serious study or careful budgeting also pays off nicely, and a respected adviser may confirm you are on track.

☉ When demands and needs collide

Sun opposition Moon

The Sun challenges your Moon, and you may feel pulled between outer demands and inner needs. Moods might fluctuate or home and work could compete for attention. Gentle routines and honest conversations help restore balance. An early night or a quiet evening at home can work wonders; kindness helps everyone.

♀ Emotional life and goals under tension

Venus square MC

Venus challenges your Midheaven, and personal pleasures may compete with professional duties. You might feel undervalued at work. Find a balance between enjoyment and responsibility, and express your worth calmly. A short break or a pleasant lunch with a colleague may restore your motivation and remind you why you started.

☿ From words to action without friction

Mercury sextile Mars

Mercury supports your Mars, combining quick thinking with decisive action. Debates, sport strategy and practical tasks can go well. You may finally make a decision you have been postponing, and your confidence in speaking up for yourself grows. Quick wins are likely if you act promptly; bold words succeed.

☉ Affection that arrives naturally

Sun sextile Venus

The Sun forms a harmonious link to your Venus, sweetening relationships and social life. Invitations, compliments or a pleasant outing may brighten these days. It is a lovely time for dates, art or small indulgences. Spending time with people you love will feel especially easy and natural; say yes gladly.

☿ Speaking too fast, or feeling misunderstood

Mercury square Sun

Mercury challenges your Sun, and your opinions may clash with those of others. You could feel misunderstood or tempted to argue simply to prove a point. Pause before replying to anything that irritates you. Clarifying your intentions calmly will get you much further than winning a debate; calm wins.

♂ Broad courage and a wish to dare

Mars conjunction Jupiter

Mars meets your Jupiter, expanding confidence and enthusiasm. Bold actions, travel plans or sporting ventures are favoured, and you may feel ready to take a calculated risk. Opportunities can come through initiative. Keep your ambitions realistic, as overconfidence might lead you to take on more than you can handle.

♀ Distance or coolness to be cleared up

Venus square Saturn

Venus challenges your Saturn, and you might feel lonely, unappreciated or financially restricted for a few days; relationships could seem distant. Be patient, express your needs simply and avoid judging your worth by temporary setbacks. These feelings pass, and a small gesture of self-care can make the days feel much lighter.

☿ When reason and feeling talk past each other

Mercury opposition Moon

Mercury challenges your Moon, and thoughts and feelings may pull in different directions. You might overthink an emotional situation or speak before you are ready. Give yourself a little time to feel before analysing. A calm walk can help untangle mixed signals. Feelings usually settle once spoken aloud gently.

☿ Gentle exchanges that bring you closer

Mercury sextile Venus

Mercury forms a harmonious link to your Venus, encouraging graceful communication. Social plans, artistic pursuits and friendly negotiations tend to flow pleasantly. You may find just the right words to express appreciation, which can strengthen bonds noticeably. A thank-you note would be well received. Grace eases every negotiation now.

♀ Pleasant new notes in your connections

Venus sextile Uranus

Venus supports your Uranus, adding sparkle and originality to love and creativity. Unconventional dates, new friends or artistic experiments can be refreshing. You may feel freer to be yourself in relationships during these lively days. An unexpected invitation could lead to a delightful evening and possibly a new friendship.

♀ Desire and haste that collide

Venus square Mars

Venus challenges your Mars, and attraction may come mixed with friction. Desires can feel urgent, and small disagreements in love might flare. Express needs directly but kindly, and channel restless passion into creative or physical activity. A shared workout or a dance class could turn tension into fun and closeness.

♀ Tenderness, inspiration and a sense of beauty

Venus sextile Neptune

Venus supports your Neptune, heightening compassion, creativity and romantic feeling. Music, art and acts of kindness are especially rewarding. A tender, intuitive connection with someone may bring a sense of quiet enchantment. Write a poem, play music or offer a kindness; these days reward gentle, creative gestures; tenderness blossoms now.

☉ Confidence and closer opportunities

Sun trine Jupiter

The Sun forms a supportive link to your Jupiter, encouraging confidence and good will. Help from others or a lucky break is possible. Use these days to plan, study or reach out to people who can widen your horizons. A conversation with a mentor or an inspiring book could set a hopeful new direction.

♀ Harmony and warmth in relationships

Venus trine Sun

Venus supports your Sun, bringing an easy, pleasant mood. Social plans tend to work out, and you may receive appreciation or a small gift; relationships feel relaxed. Arrange a date, meet friends or spend time on a creative hobby that makes you feel good about yourself; harmony comes naturally now.

☿ Good news and words that open paths

Mercury trine Jupiter

Mercury supports your Jupiter, favouring learning, publishing and generous conversations. Opportunities may arrive through a message or a meeting. Teaching, mentoring or asking for advice can be particularly fruitful during these hopeful, open-minded days. A book or podcast might inspire a new plan, and good advice could reach you from an unexpected source.

♀ Intense, compelling affections

Venus conjunction Pluto

Venus meets your Pluto, intensifying desire and emotional depth. Attraction may be powerful, and relationships could reach a turning point. Jealousy or possessiveness may surface. Let intensity lead to honest intimacy rather than control. Deep feelings shared openly tend to strengthen bonds rather than threaten them; passion runs deep today.

☉ When talk turns into argument

Sun square Mercury

The Sun puts pressure on your Mercury, and misunderstandings or a crowded schedule may test your patience; your mind could race. Slow down, check details and listen as carefully as you speak to keep things on track. Sleep on any decision that feels rushed. Patience will save you time.

☿ Messages that stall or clash

Mercury square Mercury

Mercury challenges its birth-chart position, and your usual way of thinking may meet obstacles. Messages could go astray or plans may need revising. Rather than forcing decisions, review the facts again. Patience with technology and with other people's views keeps the days productive. Revisions now often improve the final result.

☾ A new start in relationships

With the New Moon in your 7th house, relationships enter a new phase. A partnership may begin, deepen or be renegotiated, and you could meet someone significant; cooperation is highlighted. Set intentions about the kind of partnership you want, romantic or professional, and take one concrete step towards greater balance with others.

☾ A reckoning of resources and priorities

The Full Moon in your 2nd house brings financial matters to a head. A payment, purchase or decision about resources may come due, and feelings about security can intensify. Review what you own and earn honestly. It is a good time to release spending habits that no longer serve you and to value your own worth.

☾ Looking ahead

As the month draws to a close, take a quiet moment to look back. Which themes in this report did you recognise in your own days, and which passed softly by? Fast-moving planets create short cycles, and noticing how they feel in your life is one of the kindest ways to learn your chart.

You might keep a simple diary next to the dates listed here, noting mood, energy and the conversations that mattered. Over time those notes become a personal map — less about rules, more about listening to yourself with care. Carry forward what helped, release what did not, and let the next month meet you with a little more self-knowledge and warmth.

This report is intended for entertainment and personal growth. It describes tendencies and potential based on your birth chart; it does not offer predictions or guarantees about what will happen, and it should not be used to make important decisions in your place. It is in no way a substitute for medical, legal, financial or psychological advice: for questions of this kind, always consult a qualified professional.
